

Run No: OPT 1 20 04 07 23

**Date:** 04<sup>th</sup> June 2013

**Address:** 901 Dayboro Rd, Whiteside QLD 4503

**Meeting Point:** Club rooms

**Time:** 07.15 am for a 07.30 departure.

**Queensland Steam & Vintage Machinery Society Inc.**

The club attended this event last year and all of us reported a very enjoyable day.

There were approximately 50 classic cars in attendance, and we parked amongst them, so parking was not a problem.

The market was also happening on the same day.

A most enjoyable lunch was attended by most club members at the hotel prior to leaving for home.

*On a Steaming Sunday all the machines will be brought to life, including the massive mill steam engine in the centre of the shed, and a number of traction engines and steamrollers can be seen trundling around the heritage park.*

**Old Petrie Town Steam Fair:**

*This event will be held in 2023 on Saturday the 3rd of June from 10.00 AM to 4.00 PM and Sunday the 4th of July from 8.00 AM to 2.00 PM.*

*The Old Petrie Town Steam Fair is the largest steam-featuring machinery rally in Queensland. Multiple steam vehicles and other unusual and rarely seen machines are brought in for this two day event. Come and see how things used to be done 'back in the day' with demonstrations of historical equipment being put to use as they would have been 100 years ago.*
